### CAREER OBJECTIVE

Aspiring **Frontend Developer** and second-year Computer Engineering student passionate about crafting modern, interactive web interfaces. I aim to gain real-world experience through freelance projects while supporting my education. Eager to grow into a **full-stack software engineer**, I continually explore UI/UX design, 3D web experiences, and secure back-end development to build complete and user-centered solutions.

### EXPERIENCE

#### Self-employed, Remote — *Freelance Web Developer*

June 2025 - PRESENT

Delivering responsive and modern web applications using **Next.js**, **TypeScript**, and **Tailwind CSS**. I specialize in crafting seamless **frontend interfaces** with a strong focus on **UI/UX design** and visual polish. My work also extends to:

- Designing clean and functional UIs with **Figma**
- Creating interactive **3D web experiences** using **Three.js** and **Blender**
- Developing secure **backend APIs** with **Flask** and **Node.js**
- Building end-to-end solutions like e-commerce platforms, business websites with email integration, and personal portfolios

Open to freelance projects, collaborations, and long-term opportunities that align with modern web technologies.

### EDUCATION

#### Laguna State Polytechnic University, San Pablo City — *Bachelor of Science in Computer Engineering*

August 2023 - Present

A state university in the Philippines known for its strong engineering and technology programs. Currently pursuing a degree in Computer Engineering with a focus on software development, systems design, and web technologies.

Python  
Java  
C++  
Next.js  
React.js  
Flask  
[Socket.io](#)  
Typescript  
Javascript  
TailwindCSS  
[Three.js](#)  
Prisma  
SQLAlchemy  
[Email.js](#)  
MySQL  
SQLite  
MongoDB  
Blender  
Sketchup  
Figma

### CERTIFICATIONS

#### React 18 for Beginners

*Code with Mosh* — Issued: May 27, 2025  
Certificate ID: cert\_jqjdq2bp

#### Mastering Next.js 13 with TypeScript

*Code with Mosh* — Issued: June 7, 2025  
Certificate ID: cert\_22p4zjpl

#### Next.js Projects: Build an Issue Tracker

*Code with Mosh* — Issued: June 11, 2025  
Certificate ID: cert\_82yg28l1

## Our Lady of Sorrows Academy, Dolores, Quezon — Highschool

2017 - 2022

A private Catholic institution providing quality secondary education rooted in academic excellence, discipline, and values formation.

### LANGUAGES

English

Tagalog

## Dolores Central School, Dolores, Quezon — Elementary

2010 - 2016

A public elementary school offering foundational education with emphasis on basic literacy, mathematics, and civic values in a community-centered environment.

### PROJECTS

#### Metafeast — March 9, 2025 - May 9, 2025

- An immersive 3D restaurant website featuring real-time table booking, ordering, and admin management.
- Integrated PayMongo API for secure GCash payments and payment confirmation flow.

#### GetLean — February 21, 2025 - February 28, 2025

- A personalized fitness coaching site with workout plans and motivational tips.
- Built using React, TypeScript, and EmailJS; responsive and mobile-friendly.

#### Issue Tracker — June 7, 2025 - June 11, 2025

- A task/issue management system with advanced filtering, pagination, and dynamic routing.
- Built using Next.js, TailwindCSS, Prisma, MySQL, NextAuth.js, and Zod.

#### Game Hub — May 20, 2025 - May 28, 2025

- Developed search, filtering, and game previews for a smooth user experience.

#### Momento (Social Media Clone) — November, 2024 - January, 2025

- Built using Flask, Socket.IO, and Vanilla JS for WebSocket-based chat and live updates.

#### ECare (JavaFX Desktop App) — April, 2024 - May, 2024

- Developed a JavaFX-based application with a clickable human body diagram.
- Users could hover over body parts to receive info on symptoms and related treatments.
